Flat Refusal of Teuton Request for a Parley Leaves Treaty Matter Open.

### AMERICANS STILL HELD

Berlin Government Declines to Release U. S. Sailors Captured on British Ships Until Assured That No German Ships Are Seized Here.

By Associated Press.  
WASHINGTON, Feb. 13.—A flat refusal by the United States government to discuss international differences without first halting the illegal submarine campaign left one other suggestion of the Berlin government still pending at the State Department today. That was to reaffirm the President's American treaty of 1793 and 1828 relating mainly to treatment of enemy residents in war times with a number of new provisions which apparently would constitute almost a new treaty.

It seems quite probable that this proposal, the same as that submitted to Ambassador Gerard at Berlin after he had asked for his passport and which he declined to consider, will be thrown upon also. Both offers were submitted to the State Department through the Swiss minister acting for Germany.

A report probably will be made soon, through the same channel, that no German merchant ships have been seized in American ports and no German sailors have been imprisoned. The government then will look for immediate release of the 12 American sailors captured from British ships in the Atlantic by a German raider and now held prisoners in Germany. The State Department was notified yesterday that they were still held pending receipt of information concerning German crews in this country.

President Wilson has under consideration today the question whether the Navy Department shall furnish guns to American ships, as it is understood the State Department has recommended.

### SAYS U. S. MUST TAKE

#### CONSEQUENCES FOR ITS ACTS

LONDON, Feb. 13.—President Wilson wishes to make an attempt to break the German blockade. The American government must be responsible for what happens," says the Berlin Vossische Zeitung in commenting on the report that two American merchant vessels had left for the blockade zone, according to the Exchange Telegraph Copenhagen correspondent. The correspondent reports that the announcement of the vessel's departure has caused a pronounced sensation in Berlin.

ATTENTION TURNED TO THE QUESTIONS CONCERNING U. S. WASHINGTON, Feb. 13.—Berlin's formal announcement that the time has expired for all exceptions in the campaign of ruthlessness turned attention here today to the question which confronts the American government in whatever next steps may be taken to meet the situation.

President Wilson abandoned his morning game of golf and remained at work in his study. In the afternoon the cabinet met and went over the situation.

Among the questions now being carefully considered are:

The proposed conference of neutrals to outline the rights of the nations not engaged in the war. This has not taken definite form and its exact status has not been divulged. Nevertheless it is known the idea has not been abandoned.

Loading guns for the arming of American merchant ships, the preponderance of opinion among officials who have advised the President on this point favors having the navy furnish the guns.

Action on Austria's situation in the new campaign. The new ambassador, Count Tarnowski, still is waiting to present his credentials and ammunition to the belligerents.

A reply to Mexico's suggestion for embargoes on foods and ammunition to the belligerents.

Any or all of these questions are expected to be decided in the near future.

While it is reiterated today that the President would not be rushed into war, it was plain that all officials realized the much feared overt act might come at any time.

## MAY PERMIT U. S. TO AID ALLIES COMBAT SUBMARINE WARFARE

By Associated Press.  
WASHINGTON, Feb. 13.—A bill directed against ruthless submarine warfare and proposing to open the ports, harbor and water of the United States in time of war to warships or vessels of belligerents against whom such warfare is waged, was introduced today by Senator Saulsbury of Delaware, president pro tempore of the Senate and a member of the foreign relations committee. At his request it was referred to the committee.

The bill is entitled, "An act to discourage the violation of international law upon the high seas."

"This measure," said Senator Saulsbury, "may enable the government without a declaration of war to assist in preventing violations of international rights at sea by giving assistance to those engaged in abating unrecognizable and unwarranted systems of warfare. It is a step that may be effective in the present international crisis without a declaration of war on our part."

Other Senators pointed out that the bill would permit the United States to give aid to the Entente Allies as long as the German submarine campaign is maintained without any further action by Congress giving the President authority to use armed forces of the nation to protect American seamen and property on the seas.

There was a discussion of the bill in the Senate although many Senators after its introduction pointed out that it would open the ports of the United States to British, French or allied warships conveying merchant vessels and also would enable belligerents to patrol the waters of the United States freely in a campaign against the German raiders.

Senator Saulsbury would not say whether the bill had been discussed with the administration but it was understood that it might prove accessible as a measure short of war designed to curb ruthless submarine warfare.

### GUARD WATER WORKS

#### Keep Watch Day and Night at Scottsdale Reservoir.

Special to The Courier.

SCOTTSVILLE, Feb. 13.—The Citizens' Water Company has placed six guards at the Scottsdale reservoir, three by day and three by night. To protect them from the extremely cold weather, temporary quarters have been built.

Just why the guards have been placed is not stated but it is a protective step in line with those taken by water companies all over the country. Superintendent John A. Burton refused to discuss the matter last night.

The opinion is that the guards are to prevent the damming of the reservoir by any fanatic in case of war with Germany.

Last week the Connellsville Water Company received word to close its plant to all visitors.

## SUGGEST VACATION OF PART OF FAIRVIEW AVENUE AS SITE FOR A MUNICIPAL BUILDING

Council will meet in special session next Monday night to decide what to do about a new city hall and central fire station. Mr. Duggan suggested the meeting, stating that the city insurance purchasers are being penalized because the fire station is on the other side of the river.

Mr. Duggan suggests that the present city hall be transformed into a fire station and a new municipal building be built. The Fourth Ward school was mentioned as a good location for the city hall but doubt was expressed whether this could be used or if it could be secured.

Mayor Marietta suggested using the end of Fairview avenue between the Macabee building and the opposite corner property. He said it would not be necessary to close it, as an alley

## ODD FELLOWS TO STAND BY NATION IF THERE IS WAR

Grand Marshal Albert N. Dick Pledges Lodge to Fight for the Flag.

### BIG NIGHT FOR THE ORDER

Public Reception in Orpheum Theatre Is Attended by Grand Officers and Large Class Is Given Degrees of Past Grand and Chief Patriarch.

Striking a responsive chord in the heart of every member of its audience, Albert N. Dick last evening spoke on patriotism, his talk being easily the feature of the public reception given by the General Worth Encampment of Odd Fellows to the state grand officers of the order here last night.

Mr. Dick, who is grand marshal, said at this time, on Lincoln's birthday, and with the national crisis now at hand, the thoughts of everyone turned to patriotism. "The I. O. F.," he said, "is above all a patriotic and American order. It appeals to the heart of every one of our citizens, the battles of every one of our wars, away to the Mexican border not many months ago. It appeals to the men who will defend their country in case it should be plunged into the horrible war now being fought. I am sure I can pledge Odd Fellowship to fight for the flag."

Mr. Dick was an added speaker, not having been expected here, and made the first speech of the evening. After the usual humorous preliminary, he launched into praise of the order, which he said was the largest fraternal society in the world. After striking his patriotic theme, he briefly reviewed the deeds of the heroes of history and paid a tribute to woman. Then, after enjoining the common people, or the middle class, who, he said, make up the order, he returned to his earlier theme by insisting that Odd Fellowship was not a warlike organization but an even greater power in things peaceful.

Perry A. Shanor, grand master; George B. McDowell, grand patriarch; and Usher A. Hall, grand secretary, were the other officers present. Their visit was planned by a boosting committee of the local encampment as a part of the membership campaign being conducted throughout the state, the slogan adopted being, "1917—Pennsylvania, 200,000." At present there are 175,000 Odd Fellows in the state, and the increase is desired in celebration of the 100th anniversary of the founding of the order next year. The meeting here was largely for the purpose of boosting the order.

The public reception in the Orpheum Theatre began with motion pictures and music by Kiefer. When the grand officers had entered the hall and mounted the platform, C. M. Glidden delivered to them an address of welcome on behalf of the local encampment. Following Mr. Glidden's address, Mr. Glidden introduced George B. McDowell, who spoke very briefly on the relation of the patriarchal organization to the subordinate organization, and Usher A. Hall, who talked of "The New Spirit of Odd Fellowship." This, he declared, is due to Grand Master Shanor.

The address of the evening was made by Perry A. Shanor, grand master. His talk was one of the finest heard here in a long time. His presentation of strong, gripping, facts was always interspersed with humor, and the funny stories which he told, one after another, were really funny. He devoted himself almost entirely to an explanation of the work Odd Fellowship is doing today in Pennsylvania. He described the eight homes for aged people and orphans, established in this state by the order, and told of the many touching scenes which one might come upon there. He brought forth the advantages of joining, and told just what a great institution Odd Fellowship is. Mr. Shanor paid a lofty tribute to the five founders of the order.

"I want to get hold of the boys of Pennsylvania," Mr. Shanor said. "Perhaps you have noticed that the

## TEA COMPANIES AGAIN IN TROUBLE; DRIVERS NABBED FOR BREAKING CITY LAWS

The rival tea companies whose 24 agents recently were arrested for soliciting in the city without a license and subsequently released are again in trouble. Two drivers were arrested this morning by Chief of Police B. Rottler.

When the 24 agents of the tea companies were nabbed they had their fines returned, proving to the satisfaction of the officials that the federal statutes covered their case. They contended that companies manufacturing goods in another state could solicit order in foreign territory without license, provided the goods were sent directly from factory to consumer.

Chief Rottler, however, kept an eye on the agents and watched their methods. He discovered that the orders did not go directly from factory to the consumer at all, but were being delivered by the wagons.

Two drivers gave bail for hearings tomorrow morning at 8 o'clock. The wagons and teams were also held by Rottler to insure their presence at the police court.

One driver was arrested on East Crawford avenue near Murphy avenue and the other was arrested in the downtown district.

Several changes have been made in the clerical forces of the Baltimore & Ohio railroad offices here. New faces are seen in the superintendent's office and in a few days a change will be made in the night dispatcher's office.

In a few days, W. E. Matthews, who has been a clerk in the night dispatcher's office will go to Glenwood where he will take a position in the trainmaster's office. He will be succeeded by A. R. Aldridge, who was formerly a clerk.

At the close of Grand Master Perry A. Shanor's speech, Captain Johnston, who had been seated on the platform throughout the evening, was asked to rise, and the grand master, after a few words of congratulations, pinned the medal upon him.

The grand master stated that he took the action on behalf of Captain Johnston's lodge brothers, who wished him happiness during the remainder of his life and honored him for his service to the order.

## CURFEW ORDINANCE TO KEEP KIDS OFF STREETS AT NIGHT

Culture Club Women Get Council to Try Regulating Children's Playtime.

### BADLY NEEDED, THEY SAY

Parents Ought to Keep Their Young Hopefuls at Home, But They Don't, Dr. Katherine Wakefield Tells Council; Hard to Enforce, Mr. West Says.

A delegation of five Women's Culture Club members last night stirred council to favorable action toward a curfew ordinance, the idea of which is to keep children off the streets at night. Assistant Solicitor F. E. Younklin was instructed to draw up an ordinance embodying the Culture Club's ideas on the subject by the next meeting of council.

The curfew law advocates consisted of Dr. Katherine Wakefield, Mrs. T. R. Francis, Mrs. W. R. Clasper, Mrs. W. H. Marietta and Mrs. G. L. C. Richardson. Dr. Wakefield and Mrs. Francis presented the matter.

Something ought to be done, Dr. Wakefield said, to keep small children off the streets at night. The parents ought to keep them home, she said, but they don't. She suggested that children under 14 be required to be home by 9 o'clock in summer time and by 7:30 in winter, unless accompanied by parents or other adults.

Mrs. Francis said the curfew idea was not a new one but that she had hopes of its being adopted because this council is different from other councils before which the matter had been brought. Naturally the councilmen sat up and took notice at these kind words. Mrs. Francis went on to say that one particularly fine thing this council had done was the appropriation of \$500 for playgrounds, playgrounds and a curfew law go arm in arm, she said.

Another member of the delegation remarked that a curfew law had worked admirably in South Connellsville. Mayor Marietta said "it's a good thing," and Mr. Duggan said he was in favor of it. Mr. West wasn't so sure. "You'll need a policeman on every corner in this town to enforce it," he said.

"We have more bother with children eight or 10 years old than all the drunks in town," was the mayor's comment.

Assistant Solicitor F. E. Younklin was told to get to work on an ordinance to be submitted at the next meeting. "If it's too drastic, of course, we can shave it," Mr. Duggan remarked.

A feed of 25 feet of property to be used in extending Edna street through to Crawford was received from J. Kirk Reamer, representing the J. A. Reamer estate. This was accepted upon the solicitor's recommendation that it was free of encumbrances and the title clear. Council is to pay \$1,100 for this land, out of Appropriation 47.

A letter from Dr. S. G. Dixon, state health commissioner, again telling council to get busy on a curfew ordinance, was read. Dr. Dixon said the need for action was urgent and said he wanted action at the next meeting toward securing a site for the plant. Mr. Duggan said he would get together with the engineer and try to find a site. The commissioner will be so informed.

Assistant Solicitor Younklin reported that he hadn't done very well on collecting paving assessments. Liens had been filed on everything lienable, he said.

Mayor Marietta reported the suspension of a policeman for 20 days. "We had some trouble with one of our policemen and I suspended him for 20 days. I put Bert Ritchey on," he told council. The cop's name was not mentioned.

A letter from Mrs. Saparito complaining because her cellar was flooded during the recent high water, was referred to Mr. Duggan.

Councilman Guyon was the only absentee.

## Prof. Hertzog Praises This Perfect Laxative

Dr. Caldwell's Syrup Pepsin  
an Ideal Remedy for  
Constipation.

In every family there is more or less occasion for a laxative remedy. It is to meet this need that Dr. Caldwell's Syrup Pepsin is prepared, and that this combination of simple laxative herbs with pepsin fulfills its purpose as proven by its place in thousands of American homes.

Prof. F. J. C. Hertzog, the well known linguist, 2341 North Orianna St., Philadelphia, Pa., wrote to Dr. Caldwell that he has used Dr. Caldwell's Syrup Pepsin in his household with excellent results and that he and his family consider it indeed a friend in need, and always keep a bottle of it on hand.

Constipation is the direct cause of much serious illness and is a condition that should never be neglected. Harsh cathartics and violent purgatives should never be employed to relieve constipation, because the very violence of their action shocks the entire system. A mild laxative, such as Dr. Caldwell's Syrup Pepsin is far preferable, being mild and gentle in its action, without griping, or other pain or discomfort; its freedom from all opiate or narcotic drugs makes it

an ideal remedy for children. Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere for fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. ## ODD FELLOWS TO STAND BY NATION IF THERE IS WAR

Continued from Page One.

young men today look on life as a plaything. Their whole idea seems to be to seek out the pleasures of life. They seem to care little for the real world-whole things. Odd Fellowship would help them wonderfully.

Teams captained by Mrs. Ole Saylor and Miss Mary Tipping tied at the end of the contest. It had been intended that the losing team should banquet the winner, but as they tied a combination supper is being given.

Over 200 guests are expected to attend and the committee in charge has arranged for the presence of Miss Nellie B. Lounsbury, of Warren, Pa., grand commander, and Mrs. Mary Hadrwick, district deputy commander, of Uniontown.

Rheuma, the wonderful rheumatism

costing many times as much.

Rheuma passes the deadly poison-  
ous secretions into the bowels and  
kidneys, from which they are quickly  
thrown off in a natural, healthy way.

Read what a reputable physician  
says about Rheuma: "I have made a  
most careful investigation of the for-  
mula employed in the manufacture of  
Rheuma, and I heartily recommend  
it as a remedy for all forms of rheu-  
matism. I find Rheuma far in ad-  
vance of the methods generally em-  
ployed in the treatment of rheuma-  
tism, and altogether different in com-  
position from the remedies usually  
prescribed."—Dr. Lyons.

## INCREASING VIEWERS' PAY.

The necessity for placing the board of viewers in all counties of 150,000 to 1,000,000 population on an annual salary of \$1,800, is not apparent to the average citizen and taxpayer.

Under the existing order a board of viewers is appointed by the court to serve for a year. Instead of naming a separate board for each view which it becomes necessary to make. This board consists of nine or twelve members, three of whom are assigned to act in individual views from time to time. For this service the viewers are allowed \$5 a day and mileage at the rate of 5 cents per mile actually and necessarily traveled in going to and from the view.

In Fayette county the board of viewers consists of nine members. During the past year they received for compensation and mileage the sum of \$2,700.30. One member, who served on the largest number of views, received \$711.30. The number serving on the least number of views received but \$24.22, the average of the nine being \$295.92. In the year 1915 the average was \$288.55, an increase during 1916 of approximately \$10 each for services and mileage.

If Representative Leo Smith's bill to fix salaries at \$1,800 becomes a law, and the membership of the board in Fayette county remains at nine, the cost to the county will be \$16,200 per year, or \$15,592.70 more than in 1915 and \$14,045.55 more than in 1916. Granting that under the proposed new law some effect will be made of the views will increase from year to year, it is still highly improbable that they will become so many in number that the whole board of viewers will be fully occupied in the discharge of their duties. Even if they were, the present rate of compensation, which is admittedly commensurate, would make the earnings of the viewers considerably less than \$1,800 per year.

It is the fact that the work to be performed, even if doubled in present amount, would require so small a part of the viewers' time during the year, that an annual salary of \$1,800 appears to tax payers as disproportionate to the services actually rendered. Representative Smith may have good and sufficient reasons in his judgment, why the viewers should be paid an average of \$1,500 more a year than their present compensation provides, but until these reasons are set forth with convincing clearness, there will remain doubt as to the wisdom, economy or urgency of so large an advance.

## PROPERTY OF ALIENS SAFE.

In Saturday's issue of The Courier there was reprinted an appeal by the editor of the Hungarian Miners' Journal to his countrymen resident in the United States, reminding them of their obligations to America, its institutions and their employers. They were assured that even in event of war with Germany "everybody's property will be untouched because this great country has always honored personal liberty and has never failed to subscribe to the principle of the sacredness of private property."

There is no reason to withhold money from the banks. American banks even in war times, are stronger than banks of other countries.

It is a happy coincidence that these words of wise caution, coming from an alien source, and addressed to aliens, should be uttered at virtually the same time President Wilson issued a statement intended to allay the fear, in this country and in Europe, that the rights of the person and property of aliens in this country would not be respected. In his statement the President said:

"I have been reported to him that there is anxiety in some quarters on the part of persons residing in this country who are the subjects of foreign states, that their bank deposits or other property should be seized in the event of war between the United States and a nation with which the President authorized the statement that all such fears are entirely unfounded. The government of the United States will in no circumstances take advantage of a state of war to take possession of property to which international understandings and the recognized law of the land give it no just claim or title. It will scrupulously respect all private rights of its own citizens and of the subjects of foreign states."

## TURNING THE DEBATE.

William H. Wilcox, chairman of the Republican National Committee, will be commended by every thoughtful and patriotic Republican for declining to comply with the request of George W. Perkins and Everett C. Kelly, Progressive members of the committee, for a meeting to discuss what the latter term "grave and important questions that now confront our country today."

## A NATION'S PRAYER

By J. H. Edmonds, Editor Manufacturers Record.

Teach us, O Thou Almighty Ruler, Thy will for this nation, and arm us with strength from on high to follow Thy guidance.

Let us not be moved by passion nor controlled by fear.

Grant that we may know Thy leadership as clearly as Thy people of old saw the pillar of fire by night and the cloud by day, but save us from the lack of faith in Thy guidance and from the failure to follow Thy teachings which caused the people of Israel to wander for forty years through the wilderness.

In this, the supreme hour of civilization, when Heaven-given human liberty is at stake, grant that we may not falter when once we have clearly heard Thy command.

If it be Thy will that we serve by waiting, give us the patient strength to do it; if it be Thy will that we follow the avowed perils of the armed contest, let us not do so in any spirit of vainglory, nor for any other reason than willingness to serve mankind by following where Thy nation leads.

We long O Prince of Peace, for Thy rule and for the day when the implements of war shall be supplanted by the tools for man's advancement, when hate shall give place to love, when right shall be might, when from earth's remotest bounds shall be heard the glad cry of reunited families and reunited nations.

But we know not where Thou shalt lead us one that day come, and so seeking not our individual or national will, but Thine, we beseech Thee that our eyes may be opened to see Thy leadership, our ears unstopped to hear Thy voice, and, having seen and heard, may we be ready to do Thy will in Thy way and in Thy good time.

We have grown selfish and self-centered; we have longed for ease and prosperity more than for the power to serve mankind, and thus we have failed. But Thou hast called us to our mighty responsibilities. Help us to accept the burden and go forward in Thy name. Let us not be as those of old who, because they were neither hot nor cold, but lukewarm, were spewed out of Thy mouth.

And grant that this nation may be united in thought and word and act; that all ill-will and hatred may be melted out of us and all the people fused into one perfect whole, ready to hear and follow Thy command.

Unto the leaders, the President and those in authority, give in large measure Divine wisdom, and in this hour may they have the strength of body and mind and soul needed to enable them to do Thy righteous will.

man Wilcox declared that it would be inopportune to call the National Committee together because "events have taken place which have brought our country to the verge of war," and "this is a time when partisan discussion is stilled and when the best thought of our people, regardless of party feeling, is turned to the loyal support of the Administration at Washington in all its efforts to meet honorably and fearlessly the crisis which faces the nation."

This is no time to engage in a discussion of factional issues, but it is, as Chairman Wilcox very wisely decides, a time to curb the debaters.

The re-detention of Americans previously released by Germany, and the unjustifiable expulsion of Ambassador Gerard before leaving Berlin are illustrations of the dangers arising from false and exaggerated rumors. The attitude of the German authorities seems to have resulted from the false and misleading news from America published in the German papers, and was not altered until official denials were received.

How appropriate it was to speak of Mrs. Mary Dunlop as being "95 years young" upon her birthday yesterday. She has always kept young through association with young friends and by being interested in the things and people about her. Any community is both happy and fortunate to have the cheering and inspiring example of one who keeps their heart young despite advancing years.

From the Experience Ambassador Gerard had before leaving Berlin it would appear that a campaign of diplomatic "lightning" began about the time the U-boats were "unrestricted."

Finding that there is no demand for the 1917 peace model, Ford has given orders to close his branch at The Hague and ship the demonstration home.

Burning a cancelled note is not wanton destruction of property. But the Baptists have been wanting to commit such an act for a long time.

The 300 members of the Emergency Peace Federation who marched upon the Capitol at Washington yesterday found the cold wave line flying at both the outer and inner gates at both ends of Pennsylvania avenue.

President Wilson is right. There should be no debate with the Kaiser until he agrees to be governed by the rules, particularly those he himself laid down last May.

Churchman has made such a pronounced success of establishing peace in his own country that he modestly believes he is now qualified to assume the role of peace maker for Europe.

"What is the secret" which we hear from day to day does not mean an advanced opening of the baseball season. It indicates the interest in the progress of the U-boat game.

Dewey's Last Flight.

From Collier's.

For nearly four years after Mr. Wilson became President and appointed Josephus Daniels Secretary of the Navy, Admiral Dewey sat in his office in the Navy Building at Washington, apparently doing nothing. The admiral, however, was not idle. He was the Navy held daily sessions. The admiral was nominal head of the board, but he seldom joined in the discussion.

The science of naval warfare had made great strides since his victory in Manila Bay, and he was now a man not to know the business of adjusting the national defenses in the new conditions belonged to a younger generation. Time must have been heavily on his hands notwithstanding the good-natured patience of his disposition and the patience he got from the visits of old friends and shipmates. "Yet he continued to go to his office with more than clerical regularity solely because he feared a clash, disastrous to the navy, between the knowledge of the General Board and the ignorance of the Secretary."

He was admiral of the navy. By act of Congress he could not be relieved except at his own request. Not even the President could remove him. Josephus the Secretary might direct the movements of the General Board, which has no political ambitions and no newspaper adventures. But Josephus the politician would think a long time before interfering with the irremovable admiral and popular hero. Admiral Dewey saw the advantage of his position and used it to the fullest extent in the service of the country. He was the buffer between the board and the Navy Department—the interpreter, the diplomat.

## THE SNOW SHOVEL.

The snow shovel is a form of tonic which does not do anything to take except heart failure and a crick in the back. Swinging a snow shovel for a couple of hours before breakfast will bring roses to the cheeks and hardness to the muscles, and physicians unite in saying that it is better exercise than anything wood, which has ruined so many husbands. Yet most men prefer to have their walks cleaned off by some underpaid boy who does not have to pause now and then to see if his breath has found the way back.

The snow shovel was designed to make it possible for people living on the same street to get down town after a snow storm without chartering a ten-cent delivery wagon. Some people are more tidy than others and cannot see their neighbors' snow. Others, through four feet of thick snow on their front walk without being seized with remorse and pushing out with a long, flat-headed, wooden shovel and cutting a narrow gorge through the same. Others, however, are entirely devoid of remorse and can sit in the front window all day and watch the profane pedestrian wade his way through the snow drifts without being moved by thoughts of the heroism.

In some localities it is against the law to allow snow to accumulate on the sidewalk and block the free-birth of the passerby. If everybody who broke this law, however, were to be fined \$1 and costs, the average quality would object enough money. During one winter to buy an electric light plant and unit charging for the use of the electric meter which runs in the back of the house.

The snow shovel makes a nice Christmas present, and if more wives would translate with their husbands and put a vacuum cleaner in their stockings we would have more confidence in the workmen of justice. Anybody can make a snow shovel at home, but it requires considerable tact and energy on the part of a resourceful wife to force it into the hands of a reluctant spouse.

## THE SLEGGARD.

I heard he slugged me, when he was young and this is too late a day, for labor, I declare. Bawling brook in comfort, I'll recline, and read a helpful book, and make its message mine. The papers reap their grain, the farmers bawled their hay; and work no doubt some sense to people built that better is it than any kind of toll; so by the babbling stream I'll read up Whit on boys. ## An Important Announcement In the Shoe Department

The Union Supply Company announces the arrival of complete lines of early Spring shoes. Many of our stores have complete stocks; others have a part of their Spring stock, with additional shipments coming in daily—enough on hand to take care of the wants of everybody. It would be hard to describe the many different styles and the many different colors, and the many different prices, of novelties for women and misses; but we want to make the statement that we can offer you just as great variety, just as popular lines, and lower prices than any exclusive shoe store. In men's and boys' dress shoes we have extensive lines, numerous styles, popular prices, but what we want to call your attention to particularly and what we are interested in very greatly, is our good wearing, well-established working shoes for men. In all the different lines of shoes there have been wonderful advances in price, and accordingly to the best authorities there are going to be still further advances. Yet, notwithstanding, we believe our prices are very reasonable. Many of these goods were purchased before the big advance went into effect and we are giving our customer the benefit of it; others show some slight advance over last season, but the advances are much less than what other dealers are selling the same class of goods at.

We have large stocks of the Hi-press White Rubber Shoes, both in the medium and high top styles. The demand for this shoe is simply wonderful. It is created simply by the extraordinary wearing qualities of the goods. They are popular with the miners, and popular with outside men. Again, what makes them popular, in our judgment, is their good wearing qualities. Our stocks of them are very complete—they are a leader in every one of our shoe departments.

## LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back Its Color and  
Lustre With Grandma's  
Sage Tea Remedy.

Common garden sage brewed into a  
heavy tea, with sulphur and alcohol  
added, will turn gray, streaked and  
faded hair beautifully dark and luxu-  
rant. Mixing the Sage Tea and Sulphur  
recipe at home, though, is trouble-  
some. An easier way is to get the  
ready-to-use preparation improved by  
the addition of other ingredients, con-  
taining about 50 cents a large bottle, at  
drug stores, known as Wyeth's Sage  
and Sulphur Compound," thus avoid-  
ing a lot of fuss.

White gray, faded hair is not sinful,  
we all desire to retain our youthful  
appearance and attractiveness. By  
darkening your hair with Wyeth's  
Sage and Sulphur Compound, no one  
can tell, because it does it so natu-  
rally, so evenly. You just dampen a  
sponge or soft brush with it and draw  
this through your hair, taking one  
small strand at a time; by morning all  
gray hairs have disappeared. After  
another application or two your hair  
becomes beautifully dark, glossy, soft  
and luxuriant and you appear years  
younger. Wyeth's Sage and Sulphur  
Compound is a delightful toilet re-  
quisite. It is not intended for the cure,  
mitigation or prevention of disease.—

When Marriage is a Failure.  
Surely marriage is a failure when  
its essential purpose, the raising of a  
family of children, proves impossible.  
In the childless home the married  
pair, though sometimes more or less  
unconscious of the fact, grow disap-  
pointed and lonely. Lacking the best  
tie to hold them together they are  
likely to drift apart, hence many sepa-  
rations and divorces.

If every wife, whose physical state  
prevents motherhood, would but try  
that great remedy, Lydia E. Pink-  
ham's Vegetable Compound, there  
would be far fewer childless homes.

## ARCADE THEATRE.

At the Arcade Theatre today is Irene Fenwick in "The Green Cloak." This delightful story of society life, with this charming young actress in the leading role, is one of the cleverest ever released by the Lubin company. Tomorrow the Arcade will start the first serial or chapter picture under the new regime. Helou Holmes in "The Last of the Lumberjacks." The manager is so confident that this is the best serial ever shown in town that an invitation is extended to all ladies of Conneltsville and vicinity to witness tomorrow's show free of charge. He believes that Miss Holmes is the most darling woman in the world today and wishes that her

## SONSSON THEATRE.

"THE FOOLISH VIRGIN."—Six-reel drama taken from the story by Thomas Dixon, featuring Clara Kimball Young, Jim Anthony, and Paul Capellani. Directed by Selznick under the direction of Albert Capellani. The cast follows: Mary Adams, Clara Kimball Young, Jim Anthony, Paul Capellani, Donnie Anderson, Kathleen Foster, Jim (8 years), Sheridan Tansy, Jim's Father, William Welsh, Jane, Marie Lina, Ella Swanson, Agnes Myles, Harden, Edward Eklar, Dora, Jacqueline Morhange. In "The Foolish Virgin," which is Clara Kimball Young's second Selznick picture, shown at the Sonsson today and tomorrow, the story, originally written by Thomas Dixon, has as its theme the sage's warning that a hasty marriage frequently causes regret. At last, Mary Adams is a romantic school teacher, given to reading about the time when "knighthood was in flower." She meets her knight, Jim Anthony, and marries him almost before she knows his first name. This young man has a grievance against society and has become a crook. Mary does not know of this fact until they have been married quite some time. She sends him away and repents at leisure, so as to make the when my words coincide. But the husband returns, having mended his ways, and the boy that has been born to the poring wife shortly after the man left brings them together again. The seventh episode of "Pearl of the Army" will also be shown today. Tomorrow "The Purple Mask" will be shown with "The Foolish Virgin."

## ORPHEUM THEATRE.

"THE WORLD AND THE WOMAN."—A Pathe Gold Doublet feature will be the attraction at the Orpheum today. Jeanne Eagles plays the splendid role of the woman and we all know about the way the world treats a woman. Especially if the woman is one that has made mistakes. The world then treats her as an outcast and is ready to down, instead of helping to uplift her. Do not fail to see this drama. A good and entertaining comedy will also be shown. Tomorrow William Fox presents Valdesa Surratt in the five-part drama, "The Victim." An overwhelming fate befalls Ruth Surratt (Valdesa Surratt) most vigorous efforts to leave a pathway beat by criminals. Ruth is jailed unjustly for a crime committed by her own father, a crackman. When she is freed she meets a wealthy physician and marries him, but her father and his gang learn where the girl is and force their way to her. They find that a detective is blackmailing Ruth and her father kills him in a fight and she is accused of the murder. Later her father, having been severely injured in a fire, confesses and Ruth gains her freedom. Thursday, Mrs. Vernon Castle in the third episode of "Patricia" and Margarita Flecher in the five-reel drama, "Miss Jackie of the Navy."

## Use "Gets-It," Lift Corn Right Off

Shrivel, Loosens—and It's Gone!

"Just like taking the lid off—that's how easy you can lift a corn off your foot after it has been treated with the wonderful discovery, 'Gets-It.' Hunt the wide world over and you'll find nothing so magic, simple and easy as 'Gets-It.' You folks who

have wrapped your toes in bandages to look like bunions, who have used knives that turned your toes raw and sore and used plasters that would shift from their place and never 'get' the corn, and who have dug and picked at your corns with knives and scissors and perhaps made them bleed—just quit these old and painful ways and try 'Gets-It' just once. You put 2 or 3 drops on, and it dries at once. There's nothing to stick. You can put your shoe and stocking right on again. The pain is all gone. Then the corn dies a painless, shriveling death. It loosens from your foot, and off it comes. 'Gets-It' is the biggest selling corn remedy in the world today. There's none other as good.

'Gets-It' is sold by druggists everywhere, and a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Conneltsville and recommended as the world's best corn remedy by A. A. Clarke, Laughtrey Drug Co., Conneltsville Pharmacy, Fred H. Harmering.

### URGE EARLY HATCHING

Experts Say It is the Secret of Winter Egg Production.

Special to The Courier.

WASHINGTON, Feb. 13.—Early hatching is the secret of winter egg production, say specialists in the United States Department of Agriculture. The pullets that hatch early mature early and are ready to lay eggs in the fall when the supply is scarcest and prices highest. Chickens that are expected to be revenue producers for their owners later in the year should be out of their shells by April 30 at the latest. If they are properly cared for thereafter they will begin to lay eggs at the very time that eggs are most wanted.

To a great extent the poultrymen of the country have overlooked this simple fact. For one thing, birds hatched later in the spring or summer are not inclined to become broody until late in the following season and thus an unprofitable circle is formed. Each year pullets mature too late to produce in the fall and winter, and they sit too late for their offspring to do any better. The poultryman who wishes to get really good returns from his flock must break this circle.

The growing use of incubators has made this comparatively easier. There is no reason why incubators should not be filled in March and early April and the hatching over before May 1. If no incubator is available it may be possible to secure broody hens in the neighborhood. That they will repay the trouble and expense necessary to obtain them, is indicated by results at the government poultry farm in Maryland. There it is not unusual to get a daily average of one egg for every five hens throughout the fall and winter, and in some pens the average has been as high as one egg for three birds. If anything like this percentage could be obtained on farms, the ordinary poultry farmer would derive real benefit from the high prices which eggs

invariably bring for a period of several months.

## "I'M IMPROVING IN EVERY WAY"

Prominent Scrantonian tells How Master Medicine Gave Him Relief.

J. L. Villet, of 303 Linden Street, Scranton, past commander of Camp 8, Sons of Veterans, and captain of First company, Second regiment, S. V. G., Pennsylvania brigade, said recently:

"I have suffered intensely for a long while from gastritis and indigestion. Whatever I ate seemed to produce bad after effects, such as gas on my stomach and nausea."

"In fact, I was always, or very generally, choked up from a gaseous, sour stomach, as if my food fermented continually."

"The trouble annoyed me no little and I became run down in every way. I lost strength and was nervous and depressed at times."

"I heard about this Tanlac, got some of it. I began improving, after using only a few doses of Tanlac, and I have been improving constantly ever since. I put the medicine to what I called a supreme test the other evening when I attended a banquet, and felt no ill after-effects from what I ate there."

"This Tanlac is not only straightening my digestion out, but seems to soothe, and strengthen my stomach."

Tanlac is now sold here by the Connelleville Drug Company.

Tanlac can also be secured in Dunbar at D. C. Eason's Drug Store.—Adv.
